EXPERIENCE

Python & AI/ML Intern (Remote) | Sure Trust |

Aug 2025 – Present

- Undergoing a structured 6-month internship comprising 4 months of Python & AI/ML training and 2 months of project implementation
- Working with Python-based data handling and introductory machine learning workflows
- Applying learned concepts through hands-on assignments and project development

PROJECTS

Pashu AI – AI-Powered Cattle Assistance Platform ([Live Demo](#))

Tech: [React](#), [Tailwind CSS](#), [Node.js](#), [Next.js](#), [Gemini API](#)

- Built a full stack web application to assist farmers with cattle breed identification and disease-related insights using image inputs
- Integrated Gemini API for AI-based image understanding and recommendation generation
- Implemented multilingual support and location-based healthcare assistance discovery
- Deployed the application with responsive frontend and backend integration

Allergy Sentinel – Food Label Analysis Platform ([Live Demo](#))

Tech: [React](#), [Tailwind CSS](#), [Python](#), [FastAPI](#)

- Developed a web platform to detect allergens and carcinogenic elements from packaged food labels
- Implemented OCR-based ingredient extraction from scanned images
- Designed FastAPI endpoints to process images and return structured JSON responses
- Integrated frontend with backend APIs for real-time result visualization

Personal Portfolio – 3D Interactive Developer Website ([Live Demo](#))

Tech: [React](#), [Tailwind CSS](#), [Three.js](#)

- Designed and developed a futuristic portfolio website featuring interactive 3D components and camera scroll effects
- Showcased projects, technical skills, and contact functionality using EmailJS
- Focused on performance optimization and responsive UI/UX design

TECHNICAL SKILLS

- Programming Languages: Python
- Frontend Development: HTML, CSS, JavaScript, React.js, Tailwind CSS, Basic Three.js integrations
- Backend Development: Node.js, Next.js, FastAPI
- Databases: PostgreSQL, MongoDB
- Authentication & Integration: Login/Signup flows, Frontend–Backend API integration
- Tools & Deployment: Git, GitHub, VS Code, Vercel

EDUCATION

B.Tech in Computer Science Engineering
Pillai College of Engineering, New Panvel
CGPA: 8.33 / 10 (till Sem V)

2023 - 2027

ACHIEVEMENTS & ACTIVITIES

- Qualified the internal round of Smart India Hackathon 2025 (SIH), advancing to the next selection stage
- Participated in multiple hackathons including CODEIGNITE and Gen AI Hackathon in 2024, building problem focused technical solutions
- Represented college football team at Mumbai University 2024 (MU) tournament

CERTIFICATIONS

- Full Stack Developer Bootcamp – GeeksforGeeks
- Introduction to Generative AI – Google
- GitHub Skills: Introduction to GitHub & Review Pull Requests – GitHub
